

**SECURYCOR**

**PROFESSIONAL SECURITY  
SOLUTIONS BUILT ON TRUST,  
RELIABILITY, AND PERFORMANCE.**

**WE DELIVER OPERATIONAL CERTAINTY,  
NOT JUST MANNED GUARDING.**

**SECURYCOR**

## **COMPANY OVERVIEW**

Securycor delivers a high-assurance, intelligence-led manned guarding service for organisations where certainty is non-negotiable.

Our model eliminates industry weaknesses such as subcontracting, inconsistent standards, and limited oversight through a disciplined, evidence-based approach, ensuring reliable performance, full transparency, and measurable risk reduction.

## **THE SECURYCOR ADVANTAGES**

### **100% DIRECT EMPLOYMENT**

No subcontractors or agency staff only fully vetted Securycor officers, ensuring consistency and clear accountability.

### **HIGH-ASSURANCE COMPLIANCE**

BS 7858 screening, live SIA checks, and NFC digital audits for complete transparency.

### **INTELLIGENCE-LED GUARDING**

Rapid incident response within 3 minutes, with full digital reporting in 60 minutes.

### **RAPID MOBILISATION**

Site-ready within 72 hours, with structured inductions for immediate operational stability.

**SECURYCOR**

**EVERY SHIFT IS FULLY AUDITABLE,  
EVERY OFFICER HELD ACCOUNTABLE,  
AND EVERY INCIDENT PROPERLY  
EVIDENCED.**

### **HIGH-ASSURANCE OPERATIONAL EXCELLENCE**

Elite Brand Standards: Our officers uphold a disciplined, professional presence, guided by strict appearance and conduct policies protecting your brand reputation while providing visible reassurance to staff and visitors.

### **KPI-LED ASSURANCE:**

We operate against rigorous, transparent KPIs. Our commitment to service credits for missed targets reflects complete operational confidence and contractual maturity.

### **SECTOR-SPECIFIC COMPLIANCE**

Fully accredited with NSI Gold and Safe Contractor, Securycor is built for regulated environments, including critical infrastructure, healthcare, and logistics sectors.

### **FIXED TOTAL COST OF OWNERSHIP:**

Our direct employment model eliminates agency mark-ups and hidden premiums, delivering stable pricing and consistent value without the volatility of emergency cover costs.

**SECURYCOR**

## RAPID-DEPLOYMENT CCTV TOWERS

Securycor delivers high-assurance temporary CCTV towers for construction sites, vacant properties, and solar farms, supported by flexible power options, including solar-assisted systems.

In many cases particularly across construction and property management security needs are temporary yet critical. Our rapidly deployable CCTV systems provide an efficient solution for establishing comprehensive, site-wide surveillance at short notice.

Mounted on telescopic masts, these units deliver a clear, elevated view of the premises, enabling early threat detection and evidence-led response to emerging risks.

## CORE CAPABILITIES

- Rapid Installation
- 6 Metre Telescopic Mast
- Live Audio Challenge
- Environmentally Sustainable
- Encrypted Remote Access

## FIXED CCTV SYSTEMS

Securycor designs, installs, and commissions high-specification CCTV systems that act as both a strong deterrent and a reliable source of evidential footage. By integrating surveillance with wider security measures, we enhance the protection of your assets, personnel, and premises.

Enhanced by artificial intelligence and advanced analytics, our systems convert raw footage into actionable insight. This delivers valuable intelligence from loss prevention and health and safety compliance to operational efficiency enabling management to make informed, data-driven decisions.

## CORE CAPABILITIES

- ANPR & Facial Recognition
- Thermal Solutions
- Integrated Fire Detection
- Embedded Analytics
- Time Lapse & Digital Auditing

SECURYCOR

# MONITORING

Our in-house, NSI Gold-certified monitoring station delivers 24/7, 365-day oversight.

The highest industry benchmark for security assurance, ensuring every system alert or technical fault is met with immediate and decisive action.

From permanent installations to rapid-deployment temporary units, our dedicated Mansfield-based team manages your entire surveillance ecosystem.

## CORE CAPABILITIES

- Live Audio Challenge
- Mobile & Police Liaison
- Evidence Management

**SECURYCOR**

# ACCESS CONTROL SYSTEMS

Technology-driven, innovative high-security solutions for managing access and egress.

Securycor provides access control solutions across a wide range of sectors, including retail, construction, industrial, hospitality and leisure, education, healthcare, the public sector, and facilities management.

Securycor works closely with each client to understand their specific access control requirements, ensuring staff and visitor safety through real-time tracking and comprehensive analytical reporting.

## CORE CAPABILITIES

- Door Entry Systems
- Contactless Entry
- Biometric Turnstiles
- Standalone Systems

**SECURYCOR**

# WIRELESS VIDEO VERIFICATION ALARM

Ideal for smaller sites and confined spaces, fully integrated with our NSI Gold-standard ARC.

Our AJAX intruder alarm is an ideal solution for sites without existing infrastructure. This wireless, solar-powered system delivers comprehensive perimeter protection, with integrated cameras for clear and reliable intruder identification.

Powered by Ajax technology, the system integrates seamlessly with mobile applications and our in-house NSI Gold Alarm Receiving Centre, enabling rapid and effective response.

## CORE CAPABILITIES

- Up to 35m detection range
- External siren and motion detectors
- 4 x solar panels and battery backup

**SECURYCOR**

# FIRE PROTECTION

Securycor delivers comprehensive, compliant fire protection solutions designed to safeguard people, property, and operations. Our services combine expert assessment, advanced systems, and ongoing maintenance to ensure full regulatory compliance and reliable performance in all fire scenarios.

## Fire Risk Assessments

Regular, compliant assessments to identify risks and ensure your premises remain protected, especially during operational or structural changes.

## Fire Suppression Systems

Active fire protection solutions, including sprinklers and water mist systems, designed to control or extinguish fires at source.

## Fire Alarm Systems

Design, installation, and maintenance of conventional and addressable systems, ensuring effective detection and alert in all fire conditions.

## Fire Extinguishers

Supply, installation, and nationwide maintenance, with expert guidance on correct types, quantities, and placement.

## Fire Doors

Installation and maintenance of compliant fire doors, available on a flexible lease basis to support cash flow and tax efficiency.

**SECURYCOR**

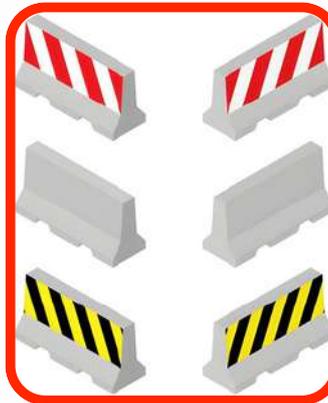

## ADDITIONAL PROTECTION

Securycor provides an extensive range of additional security solutions.

In addition to our core services, Securycor acts as a one-stop solution for all additional security requirements.

- Vacant Property Inspections
- Lighting Towers
- Drone Surveys
- Perimeter Protection
- Concrete Barriers
- Steel Screens & Doors

## CORE CAPABILITIES

- Up to 35m detection range
- External siren and motion detectors

**SECURYCOR**

## RETAIL GUARDS

When it comes to guarding, we are more than just a standard security provider.

In addition to our core services, Securycor acts as a one-stop solution for all security requirements. Our officers are highly trained in every aspect of retail security, supported by over a decade of experience within this fast-paced sector.

Operating across the UK and Europe often within environments with elevated levels of antisocial and violent behaviour our focus is on loss prevention, theft reduction, and effective incident management.

With rising levels of abuse faced by retail staff, Securycor provides a visible, professional presence to protect your business and create a safer environment for both colleagues and customers.

**SECURYCOR**

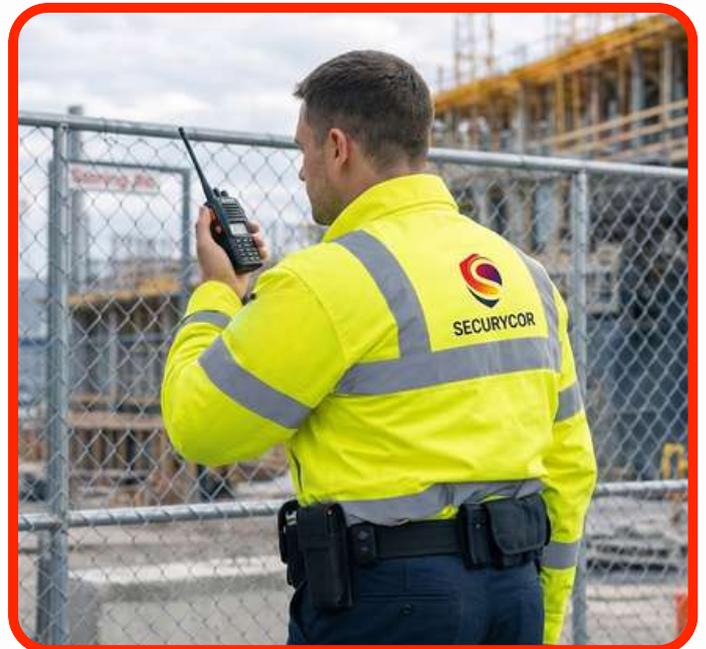

## CONSTRUCTION GUARDS

Highly trained and highly motivated, our teams are led by experienced security professionals who provide clear direction, maintain high standards, and ensure consistent, effective performance across every assignment.

Securycor is a trusted specialist in construction site guarding. Supported by our extensive network of trained officers, we operate 24/7 ensuring rapid response to requests and timely mitigation of onsite security risks, whenever they arise.

Securycor is supported by dedicated National and Regional Operations Managers who deliver ongoing training and provide bespoke incident reporting, helping to identify and mitigate risks across construction sites.

**SECURYCOR**

## VACANT PROPERTY INSPECTIONS

Protecting vacant assets requires more than simply securing the premises. Our bespoke inspection regimes are designed to meet UK insurance requirements while mitigating risks such as squatting, arson, and environmental damage.

### Core Capabilities

#### Utility Audits

Routine checks of water, gas, and electrical systems to identify leaks, faults, and potential fire risks.

#### Meter Readings & Compliance

Accurate, scheduled recording of utility usage to support billing accuracy and insurance compliance.

#### Eviction Support

Working in partnership with legal teams to provide a secure on-site presence during and after the removal of unauthorised occupants.

## MOBILE LIGHTING TOWERS

Visibility is the first line of defence. We provide rapidly deployable lighting solutions for construction sites, events, and unlit industrial perimeters where mains power is unavailable.

**SECURycor**

## DRONE SURVEYS & SURVEILLANCE

For large-scale infrastructure and complex environments, our CAA-licensed drone pilots deliver a “bird’s-eye” view that traditional guarding cannot achieve.

- **Thermal Imaging:** Identifying heat signatures of intruders or equipment malfunctions in total darkness.
- **Site Mapping & Logistics:** High resolution aerial footage for progress reporting and identifying perimeter vulnerabilities.
- **Rapid Aerial Response:** Deploying drones to investigate fence line activations without putting ground personnel at risk.

## PERIMETER PROTECTION

We design and install physical boundaries that define your site and deter unauthorised entry. From temporary hoarding to permanent security fencing, we ensure your boundary is a hard target.

## CONCRETE BARRIERS & BLOCKS

Preventing unauthorised vehicle access and "fly tipping" is critical for vacant land and construction sites. Our heavy duty concrete barriers provide an immediate, immovable physical block

- Anti Ram Protection: Interlocking blocks designed to stop high speed vehicle incursions.
- Site Demarcation: Creating safe walkways and restricted zones for heavy machinery and site traffic.
- Rapid Deployment: Same day delivery and positioning using Hiab equipped vehicles across the UK.

## STEEL SCREENS & DOORS

When a property is at high risk, standard timber boarding is often insufficient. Our perforated steel screens and insurance approved security doors offer maximum protection against forced entry.

We design and install physical boundaries that define your site and deter unauthorised entry. From temporary boarding to permanent security fencing, we ensure your boundary is a hard target.
